

BONUS: STREAM DAY APP

Every CozyPixelKits kit comes with **Stream Day**, a free phone app for your stream days. Mochi, Maple, Pip and Cocoa cheer you on while you get ready, go live and grow. Private, works offline, no account, no ads.

SCAN WITH YOUR PHONE CAMERA, OR TYPE

cozypixelkits.github.io/streamday

Opens right in your browser. Add it to your home screen and it works like any other app, even without internet.

1. PUT IT ON YOUR PHONE

IPHONE / IPAD

1. Open the link in **Safari**.
2. Tap the **Share** button (square with an arrow).
3. Scroll down, tap **Add to Home Screen**, then **Add**.

ANDROID

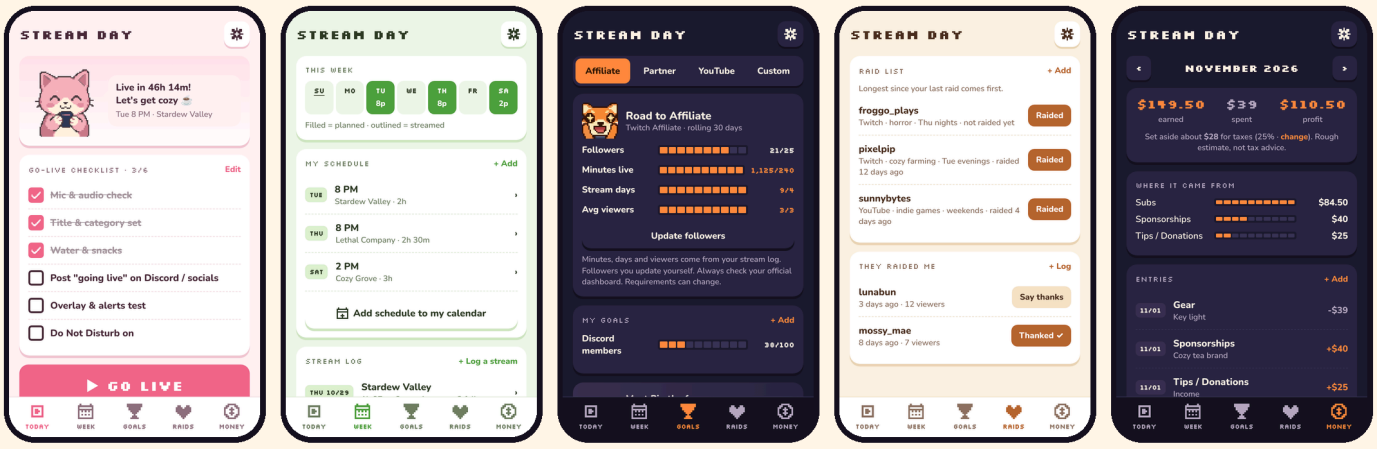

1. Open the link in **Chrome**.
2. Tap **Install** when it pops up, or tap ⋮ › **Add to Home screen**.
3. Find Stream Day on your home screen.

On a computer? It runs in any browser too. Your data stays on the device you use, so pick one main device (your phone is best).

2. FIRST RUN (1 MINUTE)

1. **Pick your buddy.** The whole app takes on their colors. You can switch anytime in Settings (gear icon).
2. **Add your channel name** and where you stream.
3. **Tap your stream days** and usual start time. Stream Day starts counting down to your next stream.

3. WHAT'S INSIDE

TODAY

Countdown to your next stream, a go-live checklist you can edit, and a big GO LIVE button with a live timer.

WEEK

Your weekly schedule, one-tap add to your phone calendar with a 30-minute reminder, and a log of past streams.

GOALS

Road to Twitch Affiliate, built from your stream log. Partner and YouTube views, plus your own goals.

RAIDS

Your streamer friends, sorted by who you haven't raided in a while. Log incoming raids and thank them back.

MONEY

Subs, tips, ads and sponsors by month, gear costs, a rough tax set-aside and CSV export.

4. HANDY TIPS

- **When you end a stream**, tap END STREAM and add average viewers and new followers from your dashboard. That keeps your Affiliate progress accurate.
- **Never miss a stream:** Week › **Add schedule to my calendar**. On iPhone it opens a page in Safari; tap **Add to Calendar**, then **Add All**.
- **Back it up:** your data lives only on your device. Once a month, open Settings › **Save backup**. Use **Restore** on a new phone.
- **Edit the checklist** to match your setup: tap **Edit** on the checklist card. Ticks reset every day.
- Your buddy has moods: finish the checklist and they get hyped. Skip streaming for a week and they get sleepy.

5. NEED HELP?

Send me a message on Etsy and tell me which phone you're using. I usually reply within 24 to 48 hours.

Enjoy your streams!
CozyPixelKits

Stream Day is a free bonus included with your purchase. It isn't affiliated with Twitch, YouTube or Kick. Requirements shown in the app can change; always check your official creator dashboard. Income figures are estimates, not tax advice.
